

Summer Fellowship Program

What it is: Your opportunity to play a key role in giving teachers knowledge and experience to create a future-ready workforce.

How it works: Host a teacher fellow to work with your team for 8 weeks*. You define the project and we identify qualified candidates. Curriculum coaches guide teachers to develop lessons that bring their experience back to the classroom, helping students envision themselves having a future career in your industry.

Program Cost: \$25K, of that \$9,800 direct to teacher.

ROI - For you, your team, and your company

- **Leadership Development** - Assigned mentors will gain supervisory experience as they work with our teachers.
- **Output and Productivity** - Add a teacher “consultant” to provide extra headcount needed to bring a project to completion.
- **Brand Awareness** - Establish name recognition among students as an innovative and forward-thinking company.

ROI - Maximize student impact

- **Scale** - By empowering teachers, we harness the incredible power of scale—with each teacher reaching 150 students per year and up to 4,000 over their career.
- **Influence** - Teachers have a unique influence on a student’s career trajectory. Underserved students in communities without industry connections especially rely on teachers for career guidance.

*35 hours/ week; remote, hybrid or in-person.

			
Example Project <i>Provided by the company.</i>	Translate QA manual into Chinese.	Develop onboarding materials for new team members.	Test temperature swings on lithium ion batteries in smart glasses.
Student Experience <i>Designed by the teacher.</i>	Apply Amazon’s 8D problem-solving method to design their own lab procedures.	Visualize systems biology through cellular reproduction animations.	Graph and present real battery testing data as an intro unit to data analysis.

About Ignited

We are revolutionizing education through a systemic approach that bridges the gap between schools and industry. Since 1985, our ecosystem of teachers and industry leaders continues to prepare students for dynamic careers by ensuring they're equipped to meet the evolving demands of the future. Join us in shaping a meaningful and adaptable educational system for tomorrow's workforce.

Our legacy: 4,000+ teachers impacting 3.9M students.
