

Empowering teachers to create impact at scale

Ignited programs maximize student impact

- **Scale** - By empowering teachers, we harness their incredible power of scale—with each teacher reaching 150 students per year and up to 4,000 over their career.
- **Influence** - Teachers have a unique influence on a student's career trajectory. Underserved students in communities without industry connections especially rely on teachers for career guidance.

Join us in shaping a meaningful and adaptable educational system for tomorrow's workforce.

Our 40 year legacy: 400 companies + 4,000 teachers, impacting 4M students.

Get Involved with our Core Programs

Your brand plays a key role in a teacher's ability to influence and build a future-ready workforce.

- Boost your team's performance and inspire future talent with our **Summer Fellowship Program**, where teachers collaborate with your staff for 8 weeks, offering fresh perspectives and leadership opportunities while developing classroom-ready lessons.
- Expose teachers to your industry with an **Experience Week**, where employees volunteer one hour to offer insights and facility tours, fostering connections and leaving 15 teachers with impactful lessons for their students.
- Empower educators with monthly virtual **Learning Community** seminars bridging industry and education, exploring topics like sustainability, cybersecurity, and electric vehicles.
- Customize our Career Hub with a branded **Curriculum Toolkit**, offering teachers tools to align classroom instruction with real-world careers.

100% Teachers report positive impact on student learning

98% Employees say the program was worthwhile for their company
